

CGR-TMS Info Bulletin

FY20 COAST GUARD RESERVE–TRAINING MANAGEMENT SYSTEM (CGR-TMS) – Update 1

Effective 01 July 2020, the tactical day-to-day management of CGR-TMS will be transferred from COMDT (CG-R5) to the Force Readiness Command Training Division (FORCECOM-T).

(CG-R5) and FORCECOM-T will work together in order to ensure the effective use of the Training Quota Management System (TQMS), Training Administration System (TAS) within Direct Access (DA), and approved C-School quotas for reservists.

Transferring the tactical day-to day management of CGR-TMS to FORCECOM-T will make the process more streamlined and effective by placing responsibility for coordinating Reserve C-School training needs within the training enterprise.

COMDT (CG-R5) will continue to execute the following responsibilities:

- a. Promulgate and manage policy necessary to execute CGR–TMS;
- b. Continue to develop Individual Training Plans (ITP) and post them on the CGR-TMS portal page to assist reservists, supervisors, RFRS staffs/TOs in identifying competency requirements and gaps throughout the FY; and
- c. Continue to approve funding for allocated quotas for the next FY.

All other roles, responsibilities, and processes remain unchanged as outlined on the CGR-TMS portal page found at: <https://cg.portal.uscg.mil/communities/CGR-TMS>.
