

# Reserve Info Bulletin

## Launch of MyCG - RIB 09/20

This past week, ADM Ray announced the roll out of the MyCG website, a new website created by Coasties, for Coasties.

MyCG is a one-stop information gateway - on the public web - that brings together essential Coast Guard news and resources to give the user easier access to the important information you need. It is available anytime, anywhere, with updates and resources to support you and your family.

There is a wealth of information contained within the site. For example, new personnel policies, career advancing information, tips to make you become a better leader, connecting with affinity groups, and even ideas to save up for your dream home are all contained within My CG!!

In the coming months, the CG will continue to upgrade their approach to organizational communications. MyCG will expand with more functionality, more news, more resources, and more voices.

You can access MyCG at <https://www.work.uscg.mil/MyCG/>. The "About" tab includes a Quick Guide for saving the site to your mobile device home screen, where it will function just like an app. Please take a moment to tell the development team what YOU would like to see on MyCG - you can email the team at [MyCG@uscg.mil](mailto:MyCG@uscg.mil).

Thanks for your attention to this important information.
